

CO2 Laser Fiber

Otolaryngology, Gynecology, Dermatology

High quality, flexible light guide for CO2 lasers

- Available as fiber material and fully assembled product
- Dual transmission of CO2 laser and aiming beam
- Large Customization possibilities for product design
- EO sterilization applicable

CO2 Laser Fiber

Otolaryngology, Gynecology, Dermatology

Lightguide CO2 laser fibers are a great instrument for delivering CO2 laser power to hardly accessible places within the human body.

We can offer for you custom design assemblies or bulk fiber on spools.

Technical details

Fiber	Inner diameter, μm	ETFE jacket diameter, μm	Straight loss, dB/m
CO2.300	300	500	< 2.0
CO2.500	500	1040	< 0.8
CO2.750	750	1300	< 0.5
